FINISHES

Frame

Powder Coat

Hula Chair frames are CNC bent, TIG welded frames, made from rust proof 304 stainless steel solid rod. The radiant and durable frames are then powder coated with exterior grade UV stable pure polyester with a luxurious ferro grain finish in the colour of your choice from our extensive colour palette.

Care for your powder coated stainless steel components by wiping when necessary with a damp cloth.

For tougher spills, rub with a damp cloth and a solution of light detergent (like Sunlight liquid) with water. Avoid scraping sharp objects on your powder coated components.
